

Perspective
Observatory

Clear insights and impactful actions.

Essentials & Premium

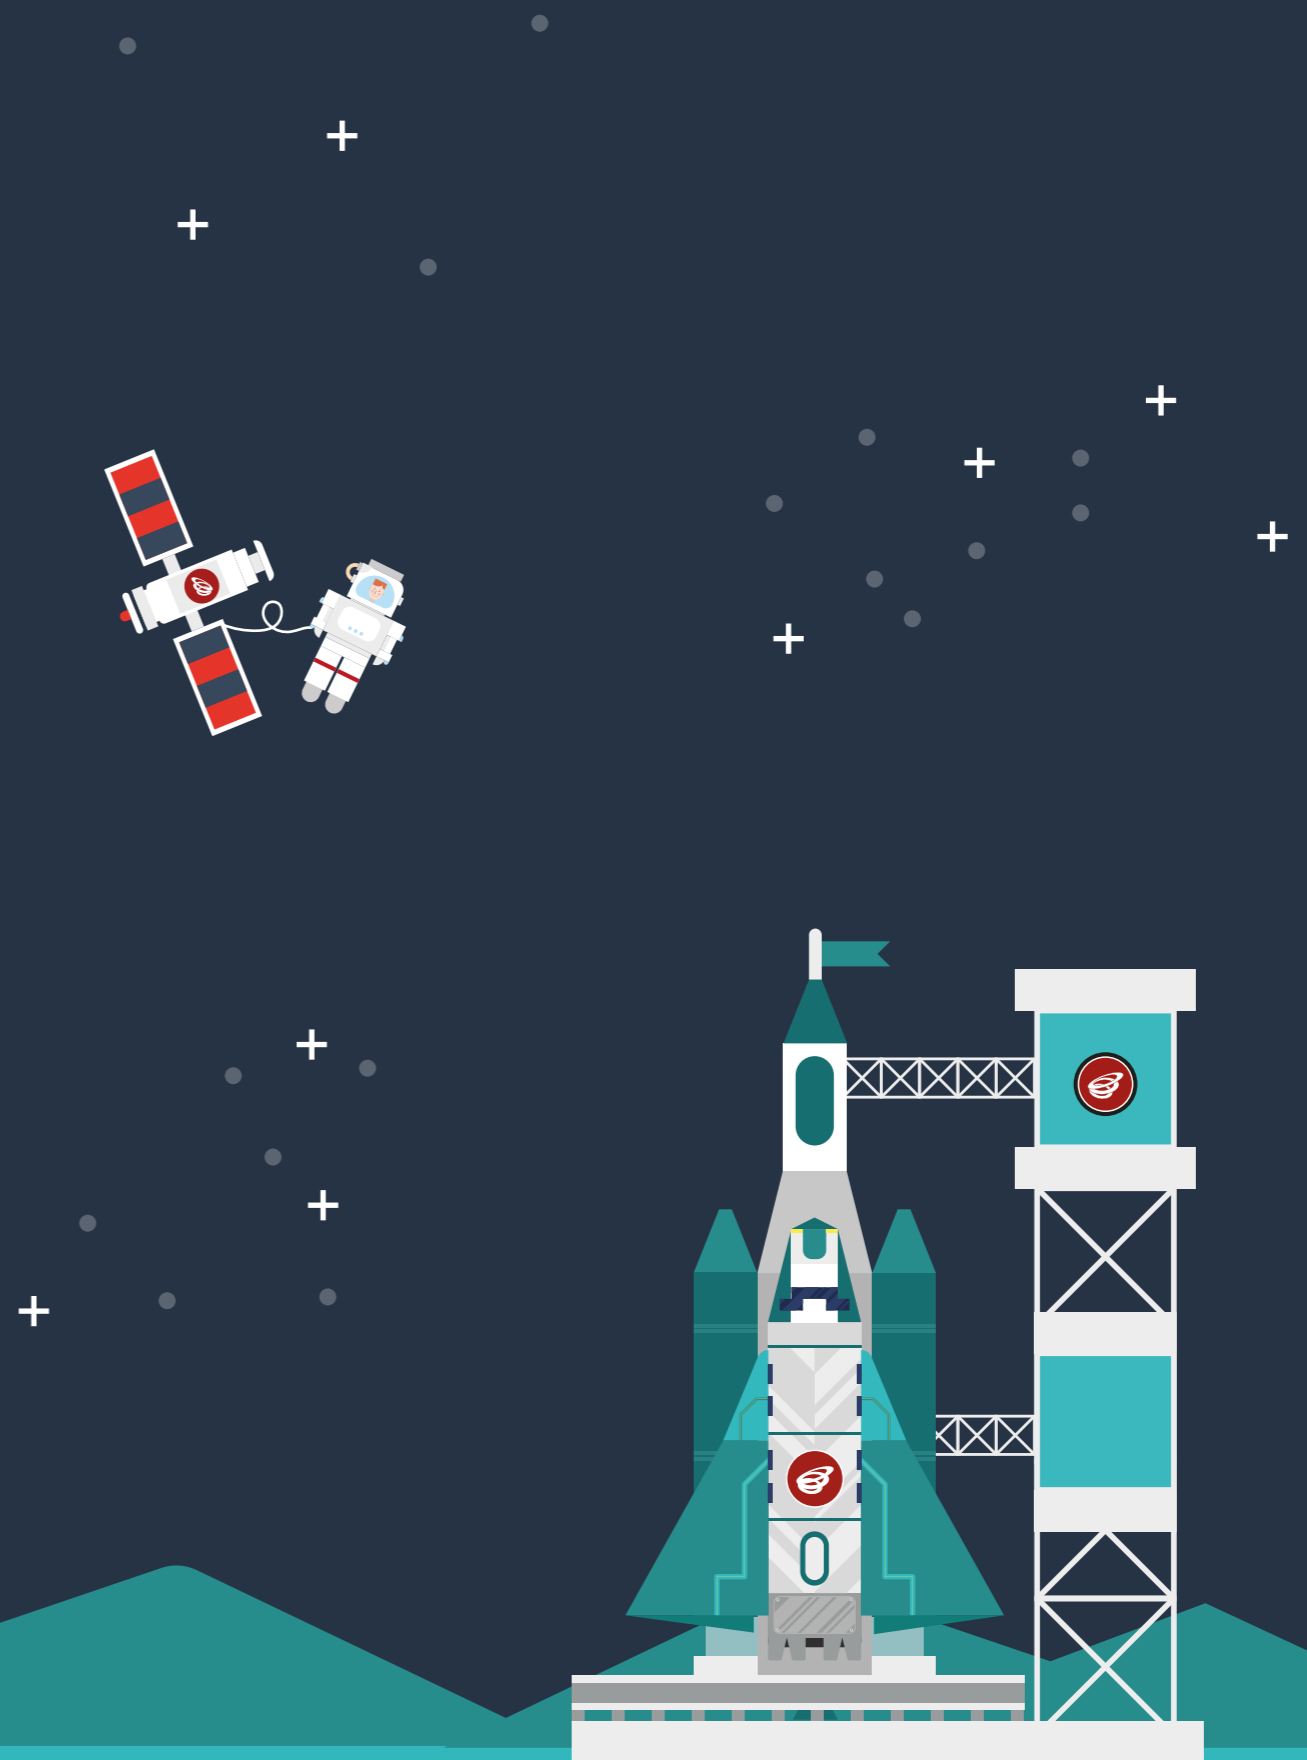

Observatory helps focus time, money and resources where they matter most.

With Observatory, you can see what's happening across all your academies.

Whether you're looking to grow and need to review how all your academies are doing, or alerted when there's something urgent to be taken care of, we keep you in control of all the spinning plates.

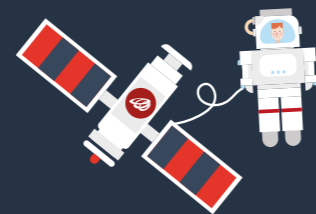

In no time, you'll see the most recent interactions with your academies, or see the latest Ofsted data, right in front of you.

Mission control.

Here you'll find everything you need; key statistics, contacts, actions and insights for each academy.

From Ofsted grades to RAG ratings, effortlessly manage all your academies in one place.

Intelligence.

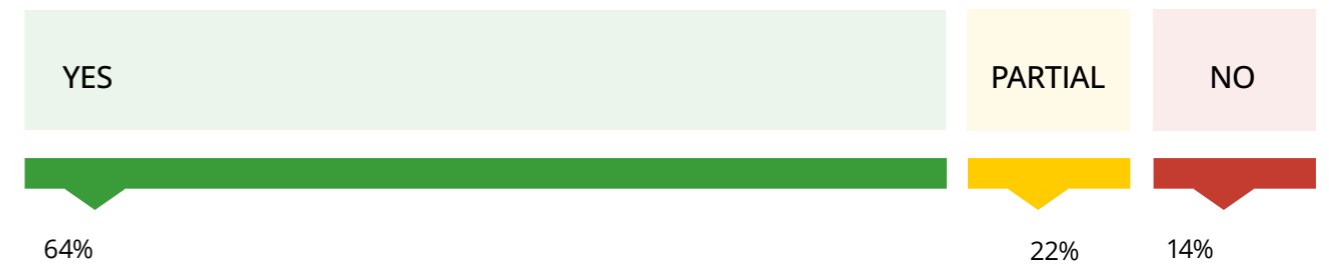

We're here to keep you informed on the positive developments across your Trust and to let you know about any areas that might benefit from additional attention.

Nobody knows the academies in your Trust like you do. With the help of our clean visuals, your grades and customisable KPIs and categories will allow you to confidently monitor your impact over time.

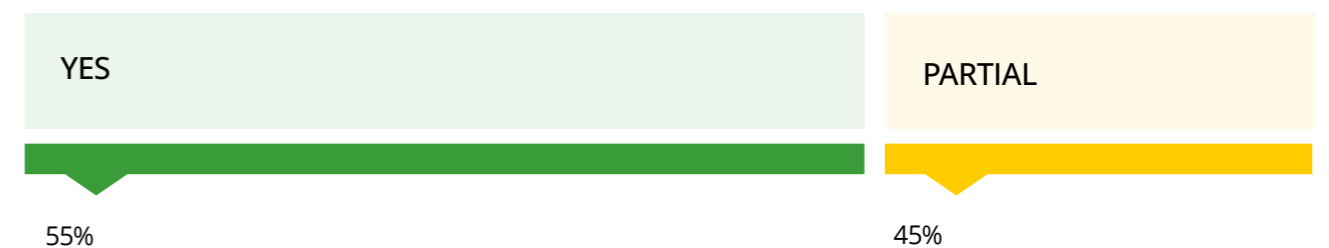

Group your intelligence in any way you like so you can spot any academies struggling, due to be inspected, or heading for a potential budget deficit, and create actions to step in where needed.

Analysis as easy as 123...

Are you still using Excel or Word documents to gather the data you need?

Observatory does all the admin for you, automatically fetching the data from across your academies, and displaying it on our analytics dashboard.

Now you can spend the time you have saved on informed intervention and record the improvements you are making along the way.

Complete Visit-bility.

We know the struggle of managing multiple visits across all of your academies, especially the amount of paperwork that is attached.

Observatory Premium provides complete “visit-bility” - the ability to locate reports and notes hidden across your visit documents. It’s the power to swiftly make Trust-wide changes without chasing and emailing versions around... and that’s why we call it “visit-bility.”

We can:

- Ensure that you have access to the latest visit data, flag overdue visits, and tell you whether the reports are in progress or complete.
- Track specific details of your visits including visit length and administrative time.
- Show any recurring themes such as academy visits with incomplete actions, or academies that haven’t had a visit.

Pssst... That's not all! Our visits work hand in hand with our actions module, so you can pair the reviewing with the do-ing.

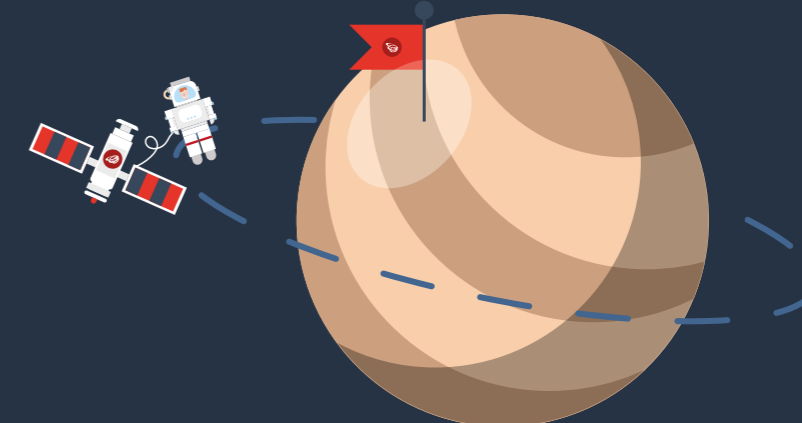

VISITS NEW VISITS

Academy Group: Angel Primary | Academies: All Academies | Adviser: My visits | Date: This Academic Year

13 UNFINALISED VISITS | 23 VISITS WITH INCOMPLETE ACTIONS | 6 BLANK/UNFILLED VISIT REPORTS

Bring Actions to life!

Are your actions still scattered across multiple Word documents?

Working hand-in-hand with visits, our actions module is your new virtual to-do list...

We can help you to:

- Track actions individually on our centralised dashboard, or include them within your visit reports.
- Keep focused on all your essential activity with key, incomplete, or overdue actions.
- Find the actions you need using our flexible search tool and powerful filters.

+ Streamlined MIS data at your fingertips.

Wouldn't it be good if you could spend more time doing meaningful actions knowing your MIS data collection is securely automated?

And that's not all...

- We include benchmark data for both MAT and national averages where relevant.
- Our unique algorithms check the quality, and help clean your data so you can be confident in the accuracy of your analysis.
- Intelligence is updated daily so you can make informed decisions in a timely manner.
- Explore your data with our date range selection and filterable categories.
- Our handy export function means you can share PDFs or download raw data to use them as prep for meetings with the wider team.

Our seamless MIS integration **works with any MIS provider** regardless of whether an academy you have or one you are considering has a different MIS to what you currently use.

Even more features...

STAY NOTIFIED

Never miss a beat with a live alert tracker that displays all the relevant updates and changes you or a team member has made across any academy in your Trust.

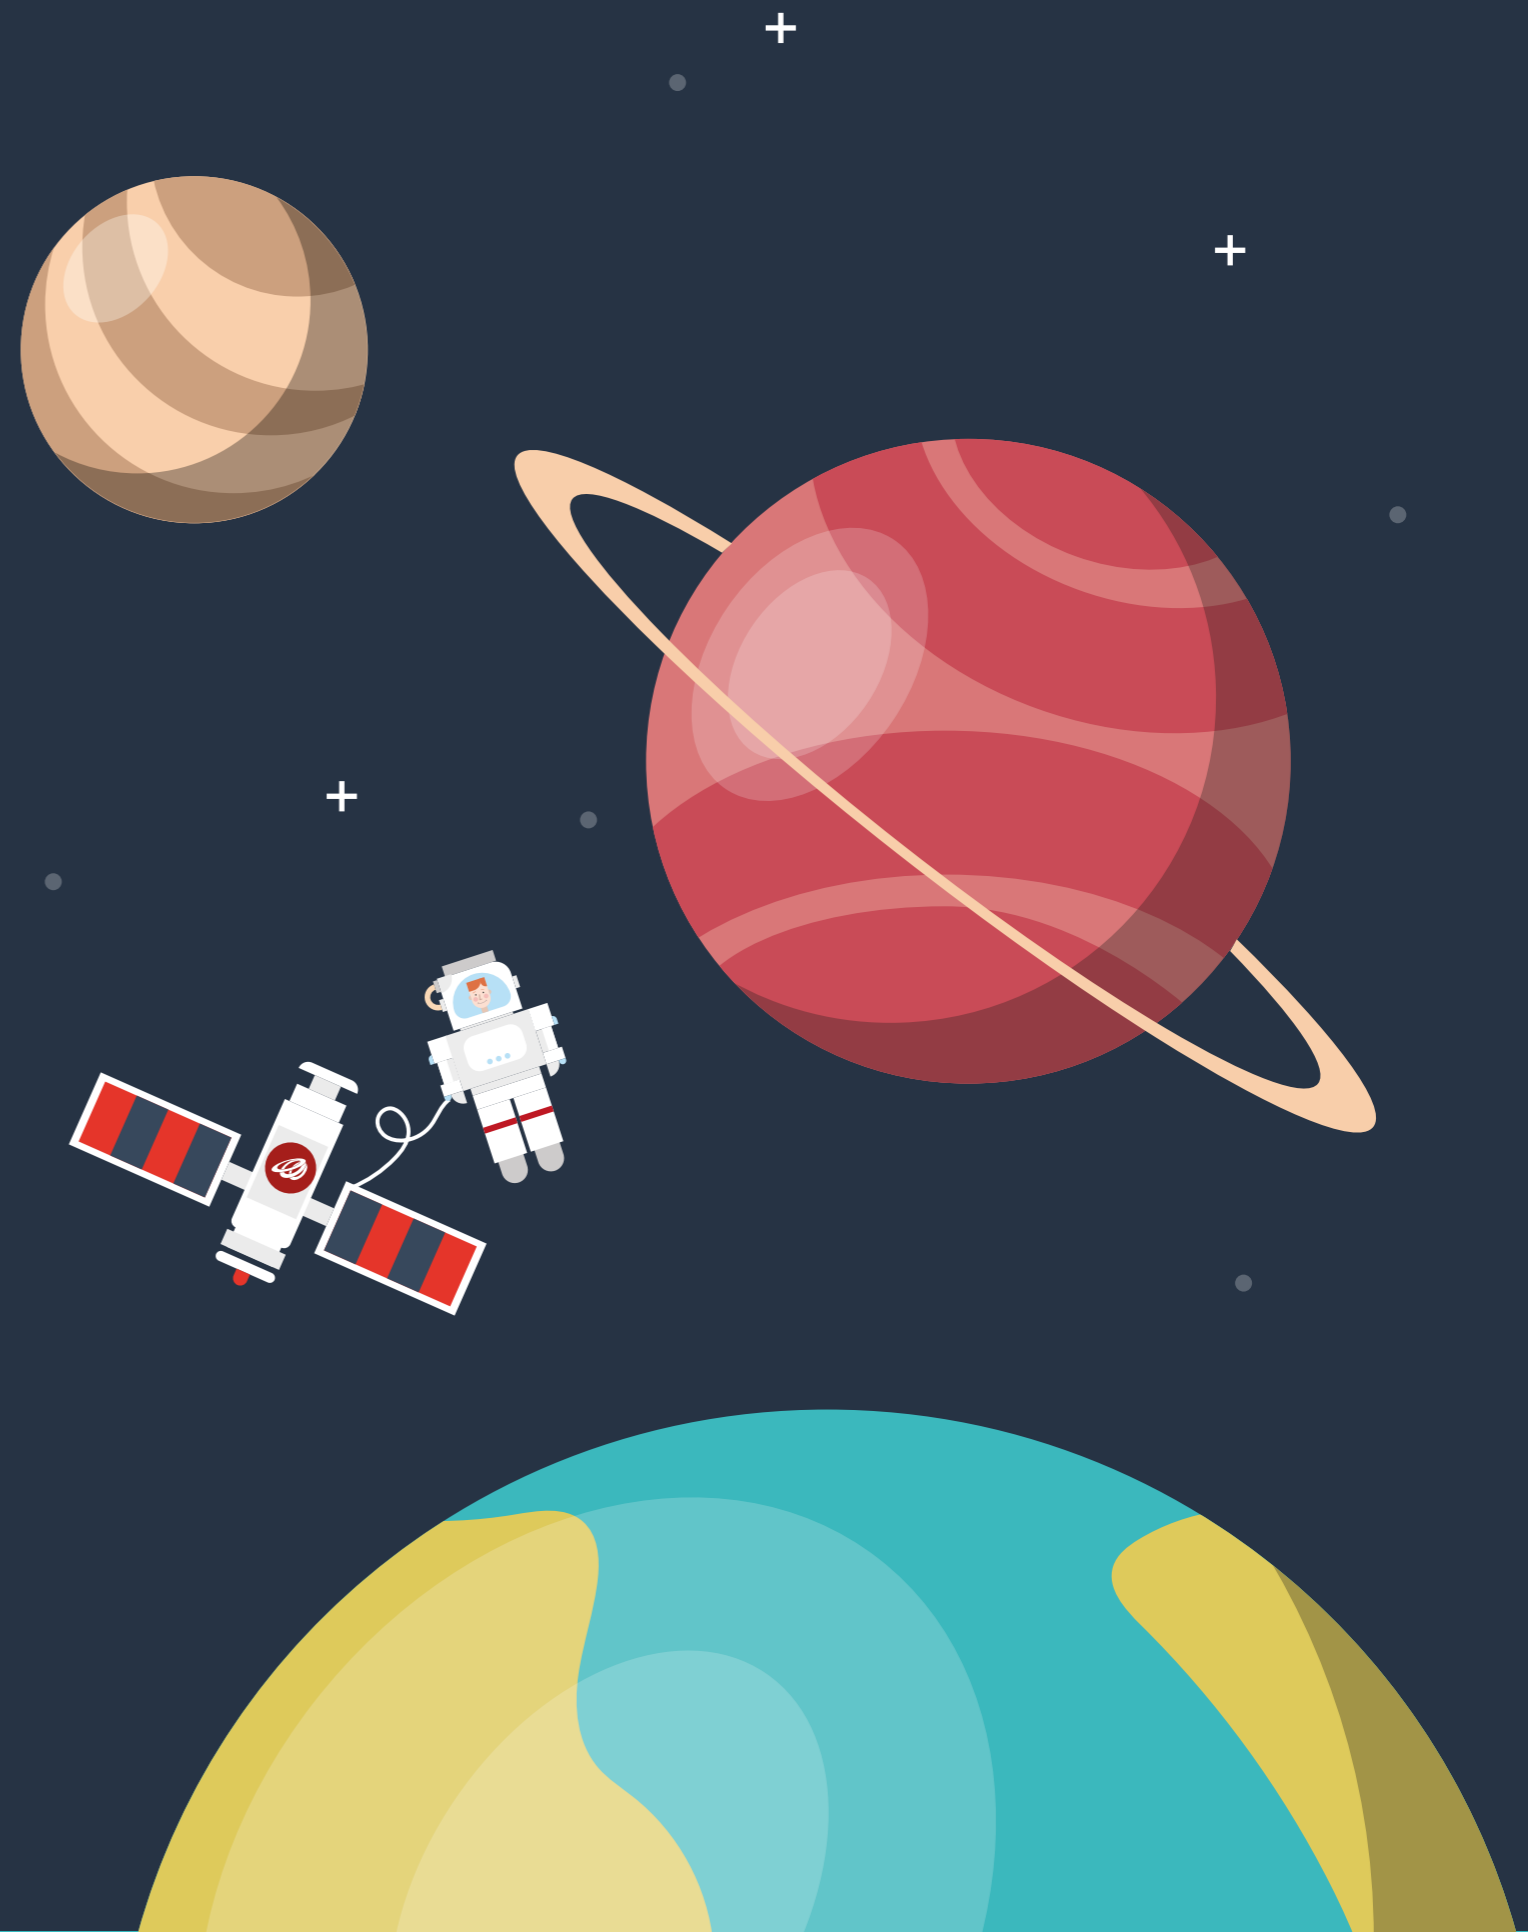

AN EYE ON PARENT VIEW

No more wasted time checking Parent View. Stay up-to-date with any recent activity.

MAPS

Keep track of all the academies within your MAT with our handy and easy-to-read map.

Access to our unique **Watchsted** tool.

Monitor the progress of inspections across the nation with our maps and analysis tools!

When one of your academies gets the call, you can always feel prepared with the latest intel available at your fingertips on the lead Ofsted inspectors.

Inspector Profiles summarise every inspection your lead inspector has done. We show you their main findings, recommendations, recurring themes, and a handy map of the schools or academies they've recently inspected.

Save time using the keyword search to investigate topics like curriculum, pupil premium, and governance in the latest Ofsted inspection reports. You can even filter the results to only include the academies you manage.

Pssst: Your academies can also benefit from this tool with their Perspective Lite accounts.

What some of our users have to say...

Perspective
Observatory

"It's the power of being able to log in, see everything all in one place but also being able to see national trends and see information about Ofsted nationally and all those sorts of things is really useful."

Antony Witheyman CEO, Innovate Multi Academy Trust

"The KPIs and the dashboard will allow us to track those smaller changes and then school leaders are able to see that whilst we haven't moved up an Ofsted grade yet and we haven't got a new set of exam results yet, we can see that the quality of the curriculum has improved month on month."

Steve Kneller, Deputy CEO, Royal Wootton Bassett Academy Trust

"Perspective Observatory has helped us develop how we manage our board... and it's because all the information is now at my fingertips."

Susannah Connell CEO, Diamond Learning Trust

Some of our valued customers...

Academy Trust

Working hand-in-hand with Perspective Lite.

Observatory seamlessly integrates with another handy free tool for your academies that we made called Perspective Lite.

Using Perspective Lite and Observatory together makes your life easier by giving your academies the same free access to our Watchsted module and other time-saving tools like our infographic census data tool.

Used in over 20,000 schools and academies, you may find that some of your academies are already using it. Contact us today to find out more.

Scan the QR code to unlock your free account.

Want more? We've got you covered...

If your academies have access to our Perspective Premium package, your organisation will be able to see even more intelligence within your Observatory account.

Including access to all your academies:

- Performance Management
- SEFs
- Team Reviews
- Development Plans
- Subject Action Plans

If you are interested in hearing about our academy improvement toolkit, why not book a quick chat with our team?

Perspective

The screenshot shows the Perspective dashboard interface. At the top, there's a navigation bar with the Perspective logo and name. Below this is a 'MY DASHBOARD' section with tabs for Summary, Actions, Targets, Prof. Standards, CPD Needs, Dev. Feedback, and Reviewing, plus a 'What's New' button. The main content area is divided into two columns. The left column, titled 'FOR THIS ACADEMIC YEAR (2022/2023)', features two progress bars: '4 TARGETS' and '4 CPD NEEDS'. The right column, titled 'MY INBOX', lists three items with dates: '03/11/2022 Angel Primary's latest newsletter', '14/10/2022', and '07/09/2022'. Below the inbox is a 'REVIEWING 9 STAFF' section with four status boxes: '2 Not Scheduled', '1 Draft', '4 Not Agreed', and '2 Active'. At the bottom, there's a 'SCHOOL SEF' section showing an 'OVERALL' grade of 'Good' and a 'SCHOOL DEVELOPMENT PLAN' section with a progress bar showing 50% for 'G', 25% for 'A', and 25% for 'R'.
